

How do I chose an insurance policy?

We recommend that you purchase pet insurance for your dog or cat. Insurance gives you the security of knowing you will be able to afford treatment if anything major happens to your pet. It also gives you 3rd party insurance in case your pet inadvertently causes damage.

It is worth spending some time researching a suitable insurance policy. We cannot give any advice on specific policies or companies, but it is worth considering the following points:

Not all policies are equal. If a policy is cheap it is likely it does not provide as much cover as a more expensive policy.

Check the amount of fees covered. Referral to a specialist Vet for a complex problem could cost above £4000.

Check how long the policy will pay out for. Some policies cover a condition for one year only while others will pay for life.

No insurer will cover a problem that exists before you take out a policy with them, so the sooner you take out insurance the better. Be wary of changing insurer once a problem has occurred as the new insurer is unlikely to cover the existing problem, while the old insurer may, depending on the policy.
